

AnnaCare

smart sensor pad for smart care

AnnaCare is a smart sensor pad that detects the **presence and absence from a bed** to provide greater **safety** for people with dementia and those at risk of falling. At the same time, caregivers are **supported** in the best possible way by timely alarms and **relieved** in their daily work.

AnnaCare is only 0.5 cm thin and is easily placed under the bedroll!

AnnaCare...

- + floor mat and bed exit system in one product
- + alerts reliably and immediately in dangerous situations
- + simple and effortless to handle

1. place

2. plug in

3. ready for use!

We are constantly improving AnnaCare. For you and your residents!

In the future, you will benefit from feature extensions that can be retrofitted and easily installed.

Presence and absence detection

Alerts the nursing staff as soon as the bed has been left

Early out of bed detection (in development)

Alerts when a person starts exiting the bed so that assistance can be provided immediately.

Fall detection (in development)

Immediately alerts in case a fall is detected in the room.

Key technical data:

Dimensions: 20 x 34 cm (DIN A4 size)

Height: only 0.5 cm

Weight: 120 g

Power consumption: 2.5 W

Cable length: up to 3 meters

Installation: Plug & Play

Connection: Compatible with existing alarm and emergency call systems

With its discrete and unobtrusive placement under one bedroll, AnnaCare does not represent another tripping hazard and does not need to be moved for cleaning.

AnnaCare works perfectly without any user adjustments. But in case there is a need for more dedicated alerts the settings can be individually adjusted via smartphone, tablet, or PC.

The protection of your personal data is important to us. Data processing is carried out locally and completely anonymized.

The bedroll is simply placed on the sensor pad.

„Always there - AnnaCare!“
